

The diagram illustrates a simple database architecture. In the top left corner, there is an orange square icon representing an EC2 instance. To its right, the text "EC2" is written in orange. Below this, a blue icon represents a MySQL database, consisting of a rounded rectangle with the text "MySQL" inside and a cylinder icon to its right. A horizontal line extends from the right side of the MySQL icon, and a vertical line extends from the bottom of the MySQL icon, meeting at a right angle. This indicates a connection between the EC2 instance and the MySQL database.
